MESSAGE FROM THE PRINCIPAL

Jai Guru Dev,

Dear Parents & Students

We are thankful for the tremendous support and cooperation we received in starting our school in the never been done virtual mode in June 2020. Our teachers, students and parents soon adopted to the new way of learning. The effort put in by the teachers in making learning interesting and the support given by the parents in creating a practical study area for the students at home and in providing the right amount of help wherever needed contributed to everything happening smoothly in our first academic year. Our teachers too have taken up an amazing amount of learning to see that the whole process was running well .

Our new academic year, 2021-2022, has just begun, again in the virtual mode. This year our expectations from our students are higher and we need to monitor student engagement and participation levels.

Since it may take a little longer for us to get our students at school, we started providing students with worksheets via our school app and also printed worksheet to help them assess their learning at each level. This will enable the students to recall the concept learnt and get their doubts clarified while learning the concepts thoroughly.

N.MADHUSUDAN

Principal

CELEBRATION:

Tamil New Year:

On the occasion of the Tamil New Year, various competitions were held for each grade level. Majority of our students enthusiastically participated in them. We appreciate our students' participation and hard work. The students performed remarkably well. We hope they continue to improve their Tamil language skills and make us proud!

APP Content:

Our team has developed a unique approach to developing in-house resource material for learning. It will be available for all lessons, and students will be able to use it soon. Because the information is developed by the teachers who are in charge of the specific classes, students will be able to grasp the concept more easily.

While we appreciate the students and parents for making the best use of a challenging and different circumstance, we hope and pray that we should soon be able to get our students safely to school where we can use all our resources to make learning a much more active and interesting experience.
